

## Vetro Blade

The Alpha<sup>®</sup> Vetro Blade is designed for high-speed wet cutting of glass. Equipped with a smooth continuous diamond rim and bond hardness best suited for glass and hard vitreous materials to provide cuts with minimal chipping. The Alpha<sup>®</sup> Vetro is an excellent choice for plunge cutting, trimming near the edges of glass and for cutting an internal radius.

The Alpha<sup>®</sup> Vetro must be used wet and when the 4-3/8" size is used on the AWS-110 Wet Stone Cutter it provides a portable dust-free solution to cutting thick glass. Since the quality of the cut is high, providing straight and true cuts with minimal chipping even near the edges of glass, waste is kept to a minimum creating a cutting solution that is quite cost effective.

The Alpha<sup>®</sup> Vetro is the ideal blade for the glass contractor looking for a high-speed, portable, long-lasting cutting solution.

PART NO.	SIZE	MAXIMUM RPM	ARBOR
WG0438	4-3/8"	13,200	20mm
WG0700	7"	8,400	5/8"
WG0800	8"	7,400	5/8"
WG1000	10"	5,900	5/8"
