

ECOGUARD TYPE C

Dust Collection Cover for Cutting Applications

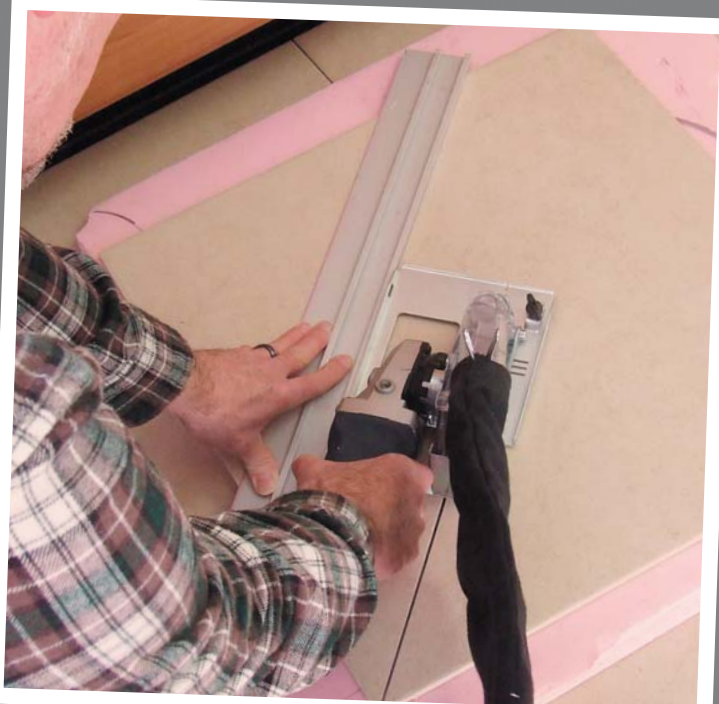

STRAIGHT CUT

Alpha® introduces the new Ecoguard, designed for collecting dust when using our High-Speed Angle Grinder. The Ecoguard Type C is for used when cutting with dry blades up to 5" in diameter. It is made of high-quality construction for heavy-duty applications. This hybrid dust collection cover eliminates the mess and can be used with or without a vacuum!

Using the Ecoguard Type C with the HSG-125 The HSG-125 has two flange/lock nut sets included that allow the use of 4", 4-1/2" and 5" diameter blades. It can also be used on other manufacturers' machines by simply changing the connector.

DIAGONAL CUT
