

TURBOSHINE

**Polishing System for Seamless Countertop Installation
and Scratch Removals for Natural and Engineered Stone**

Introducing Alpha® Turboshine, a new polishing system for seamless countertop installations and scratch removals for natural and engineered stones.

Equipped with the newly designed “Dual Adapter System”, the vibration during operations is dramatically reduced. This new system allows you to utilize the optimum disc type and grit for the application without changing the drive system. The Dual Adapter System has improved user-convenience and reduced the downtime between grits.

The Turboshine System comes with rigid and flexible discs including the famous Alpha® Buffs along with a new and unique # 2000 grit disc designed to bring back the original surface condition of Engineered Stone and Quartz Surfaces. The finest results can be accomplished by selecting the appropriate tooling for the choice of stone. The Turboshine provides the best results for not only Granites and Engineered Stones/Quartz Surfaces, but also for the most difficult marbles such as green and black. In addition, the system works great on Crystallized Glass and Concrete Slabs.

PART NO.	DESCRIPTION
DAS35/8PD	Dual Adapter - 3"
	RIGID DISCS
TSR30100R	Turboshine Rigid 3" 100R
TSR30200R	Turboshine Rigid 3" 200R
TSR30500R	Turboshine Rigid 3" 500R
TSR31000R	Turboshine Rigid 3" 1000R
TSR32000R	Turboshine Rigid 3" 2000R
TSR33000R	Turboshine Rigid 3" 3000R
TSR3BLACK	Turboshine Rigid 3" Buff Black
TSR3WHITE	Turboshine Rigid 3" Buff White
	FLEXIBLE DISCS
TSF30100R	Turboshine Flex 3" 100R
TSF30200R	Turboshine Flex 3" 200R
TSF30500R	Turboshine Flex 3" 500R
TSF31000R	Turboshine Flex 3" 1000R
TSF32000R	Turboshine Flex 3" 2000R
TSF33000R	Turboshine Flex 3" 3000R
TSF3BLACK	Turboshine Flex 3" Buff Black
TSF3WHITE	Turboshine Flex 3" Buff White
	ENGINEERED STONE DISCS
TSE32000R	Turboshine Flex ES 3" 2000R
